

Material: Non-woven backed wallpaper with a fine grain texture

Grammage (g/m²): 290 g/m²

Fire Resistance Certification: Euroclass C-s2, d0

PRINTING, APPLICATION, AND USAGE GUIDELINES

Compatibility: Compatible with solvent, eco-solvent, UV, and latex printers

Adhesives: High-performance PVA adhesives are recommended

Cleaning:

Digitally printed wallpaper can be washed.

Light or moderate stains can be removed with a mild detergent and a damp cloth.

Intensive scrubbing is not recommended.

It is important to wipe the wallpaper with a damp cloth in a vertical motion (top to bottom) to prevent soaking the edges.

Do not use bleach or similar agents.

Recommended Application Temperature: 18°C with 65% relative humidity

Avoid direct sunlight, drafts, and room heating during the drying process.

Drying Time: 1-2 days, depending on temperature, relative humidity, and substrate

Storage: Rolls should be stored upright in a dry and cool place.
